

DISCREET BUT POWERFUL – THE CLADDING ANCHOR MFA

LEAVES YOUR SURFACES INTACT

Added value
Use in thin-walled panels
(≥ 8mm)

THE CLADDING ANCHOR MFA

Stainless steel A4
The undercut anchor for hidden fastening of thin-walled panels (≥8mm).

ADVANTAGES

- Expansion-free anchoring
- Not visible on the exterior surface
- Position of the anchor is freely selectable on the rear and can therefore be optimised
- Temperature-independent installation, instantly loadable
- Quick and easy installation of reveals
- Can be pre-assembled in the works or on the construction site

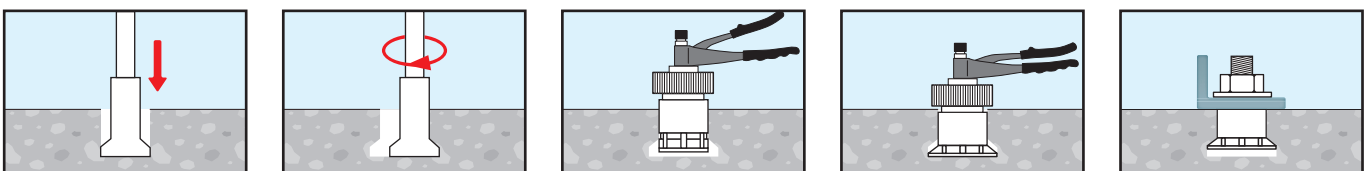

APPLICATIONS

- Connection to sub-structures
- Connection to cassette constructions
- Fixing of reveal boards with interior angles
- Direct fixing on the wall

INSTALLATION

A key advantage of the MFA is a high degree of installation safety. In order to make undercut drill holes, special drill bits are required. They can be set on customary drilling machines. The anchor is set using a setting tool.

FUNCTIONALITY

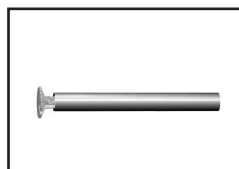

CLADDING ANCHOR MFA

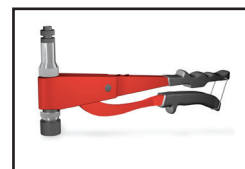

Stainless steel A4

The undercut anchor for hidden fastening of thin-walled panels ($\geq 8\text{mm}$).

ACCESSORIES

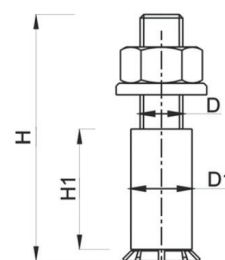

Drill bit

Setting tool

DIMENSIONS

Description	Dimensions mm	Tolerances mm
H	30	+/-0,5
H1	14	+/-0,5
D	M6	+/-0,2
D1	10	+/-0,2

SUBSTRATES

Applicable in	Specific examples for substrates
Natural Stone	Granit, Marmor, Sandstein, Kalkstein, Travertin ...
Ceramics	Petraluxe, Mirage, Lapitec, Cotto d'Este, SMG ...
Conglomerate stone	Compac, Technistone, Quarella, Silestone ...
Porcelain stoneware	Porcelaingres, Marazzi, Ariostea, Porcelanosa ...
Plastic	Corian, HiMacs, Staron, Montelli, Mistral, GetaCore, Kerrock, Hanex, Avonite, Durat, Wilsonart, Minerelle, GetaCore ...
Glass ceramics	Stoneglass, Hecker, Glaskeramik,
High pressure laminates (HPL)	Trespa, VETISOL, Prodema, FunderMax, Abet SpA, Kronospan ...
Architectural concrete	HPC, GRC, FGRC, Rieder, Fydra, Polycon, Leg-Tur, KRK, Hering ...
Fibre cement	Euronit, Cembrit, VETISOL, Carea, Minerit, Swisspearl ...
and others	Rockpanel ...

PULL OUT VALUES

Material	Thickness of plate mm	Pull-out value kN*
Taurus Black-Mineralit	20	11
Technistone	20	8
High performance concrete	30	7
Corian Nocturn DuPont	12	5
Sandstone Heron	20	4
Ceramic Petraluxe	10	2
HPL Prodema	8	1
